# profits MADE TO order!

Personalised gifting is Presto's forte and it has guarded it fiercely for the last 10 years by offering a world class products range. Till date, no other company has come close to what Presto offers and stands for. Presto Personalised Wonders, a Kolkata-based brand owned by Mohan Impressions Pvt. Ltd., was incorporated in June 1995 with one objective, to be the premium resource in everything that can be Personalised. The Founders Directors, Anurag Poddar and Anil K. Jhawar, have been at the helm of the affairs since the journey began with a miniscule team of 10. Today, the company has a staff strength of 225+ and owns business space exceeding 70,000 sq. ft. From very modest beginnings, the company over the years has developed its distribution

houses nearly 600 unique products that cater to all kinds of gifting needs for teenagers, youngsters, house-wives and serious buyers like corporate houses, PSUs, clubs, schools, colleges and all kinds of business houses as well.

its distribution channels, diversified its product lines and multiplied success.

Presto wonders now has five verticals; Personalised gifts, Corporate gifts, Awards and Appreciation products, Personalised Interior decor and office rubber stamps. Each store

*"The Personalisation industry is at a nascent stage and hence, it will grow very rapidly in the next 10 years. This spells out a huge opportunity, as the entry cost is low at this stage and the competition is almost non-existent."*

**ANURAG PODDAR,**  
DIRECTOR, PRESTO WONDERS

## Potential for profits

The corporate gifting market in India is around USD 500 million. The market is a concoction of organised and unorganised players. At Presto, the goal is to be the Numero Uno of personalised products and services through quality products and unparalleled customer service. As per Anurag Poddar, Director, Presto Wonders, "In india, the industry is at a nascent stage and hence, it will grow very rapidly in the next 10 years. This spells out a huge opportunity as the entry cost is low at this stage and the competition is almost non-existent."

"The market for custom awards in India is driven by price while in other countries, it is quality-driven. This leaves a lot of space for businesses willing to supply quality and complete solution in rewards and recognition products. This market is estimated at USD 1200 million in India and growing at 50 percent every years", says Anil K. Jhawar, Director, Presto Wonders.

**PERSONALISED WONDERS, THAT'S WHAT DEFINES PRESTO THE BEST. GRAB ANY PRODUCT FROM ITS STORES AND PRESTO WILL MAGICALLY TRANSFORM IT INTO A 'SPECIAL SOMETHING' FOR THE 'SOMEONE SPECIAL,' BE IT ANY OF YOUR FRIENDS OR A FAMILY MEMBER. AND ITS BUSINESS FORMAT IS EQUALLY PROFITABLE AND FLEXIBLE.**

the latest advances in technology to provide its customers a safe and satisfying shopping experience.

As with other, renowned companies in any sector, franchising has proved profitable for Presto Wonders franchise family too. The franchisee buys the consumables or blanks from the company and customises the products in the store itself. The ratio between the sales and purchase is usually 2:1. Most products can be customised in just 15 minutes while the customer waits. With growing volumes, the company is able to offer better solutions to customers in terms of products, service and creative support. All these factors contribute to the growth of this personalised concept to multiply profits.

When asked about the contribution of franchising as a business model in expansion, Poddar says, "Franchising is the ideal growth vehicle for our format. While we focus on product development, brand building, technical and other supports to the franchisee, the franchisee can focus on running the store optimally. Franchising is the perfect marriage, where each party brings on the table what the other lacks. Franchisee emphasizes on investment, local knowledge and entrepreneurial spirit

The company's rewards and recognition products help many companies and corporates give face to the achievements and inspire their team. The share of personalised gifts is less than 1 percent of the total gifts market but is doubling every year. Presto is helping the cause in a big way by continuously introducing new products for customers to choose from. Recently, Presto has introduced personalised three dimensional crystals where any image or text can be engraved inside the crystals. World over, this is a benchmark product in personalised gifting.

Presto's large range means it has a huge target audience: Kids, teenagers, housewives, young executives, corporates, businesses, schools etc. Anyone from the urban middle class can be a Presto customer.

### Consolidating online/franchising business

In 2009, Presto entered the realm of e-commerce by launching its portal [www.prestogifts.com](http://www.prestogifts.com). Through this, it simplified the gift-giving process by making shopping convenient and secure. Presto has been a pioneer in utilizing

while the franchisor contributes a proven business model, volumes of scale and brand value."

Out of the 165 stores that the company is successfully operating across the nation, 140 are franchised. The company plans to open majority of its stores via franchising only in the near future.

**Add-on benefits for franchisees:  
Investment & time flexibility**

The personalised benefit is not only for customers but franchisees too. While taking a Presto franchise, the franchisee gets the investment and time flexibility. Not only the franchisee will have to invest less time, but he will also have an investment range to chose from. A potential franchisee can

business because it suits the temperament and creative ability of a woman. It also requires very less amount of involvement, which is suitable for women entrepreneurs, who have to balance social and professional responsibilities." Since the company operates through small format retail, Presto's franchise store can fit in an area between 80 sq.ft to 1000 sq.ft in shopping malls, high streets or in large departmental stores.

make an investment as low as Rs 10 lakh and as high as Rs 30 lakh. The investment fee for Presto's franchisee also incorporates machineries, working capital, store fit-out and other start-up costs. For its franchisees, the company has evolved store control systems so that a franchisee can monitor his store by spending on an average 2 hours per day.

Some of Presto's best franchisees are women. At present, the company has twenty five franchise stores run by women and the company is keen on increasing this number. As says Jhavar, "It is suitable for women to start this

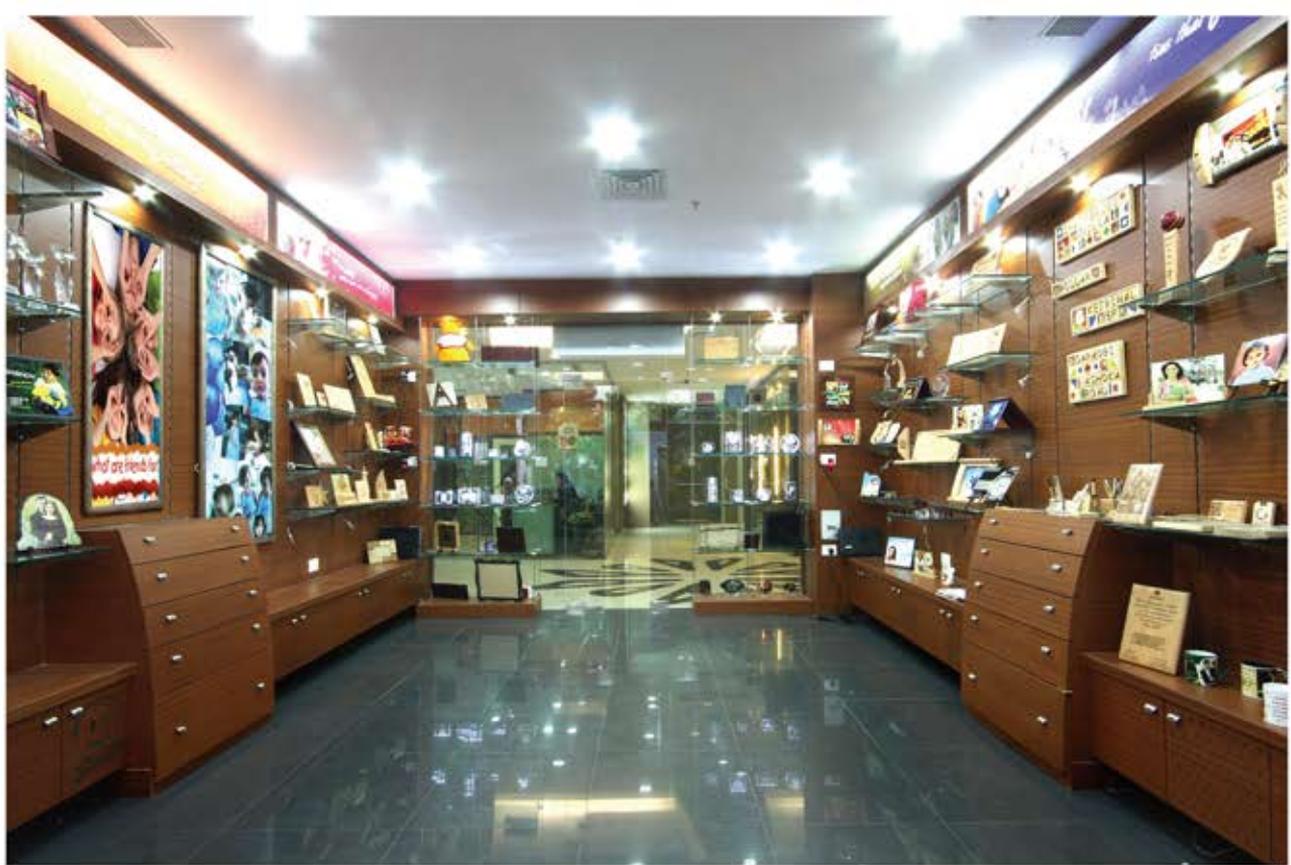

Their stores can be standalone or kiosks, depending upon the availability and nature of the space.

**Helping franchisees grow**

On the training front, Presto provides a 360-degree support system to its franchisees. The pre-store opening support starts with site selection followed by assistance in store fit-outs, staff recruitment and training, store is commissioned, the support team is there to provide all operational support that includes creative support, machine maintenance, sales support, etc. The company conducts quarterly audits at the franchised stores to determine various performance parameters and see whether the franchisee staff is trained up to the mark in required areas.

The company holds special and extensive training sessions for its training centre in Kolkata. It also provides staff training in terms of handling and troubleshooting of the machines, retail operation, merchandising, corporate sales etc. The company carries out ATL and BTL activities throughout the year across its network. To keep the stores "happening" the company observes all important days of the calendar, such as Valentine's Day, Friendship's Day, Father's Day, Mother's Day, etc. on the same date and perform event-specific merchandising at all the franchise stores.

It organizes interactive sessions with customers inside the store and PR activities with celebrities.

Patronizing IT and ITES companies, Presto Wonders has a pan-India tie-up with them and business from a particular city gets routed through the respective franchisee. They even route their online business through their franchisees.

The company is operating through SIS format inside Pantaloons, Big Bazaar, and some multiplexes and food courts. After a rewarding response in India, the company is all set to go global. Presto has come a long way from its humble beginning. And given its core competence, successful track record and products' range, it is right on the way to chart personalised success.

### Boasting at 165+, eyeing double century in 2018
